FACT SHEET

Reporter

As a volunteer reporter you will be the stronghold of the project's mission to track and ultimately prevent digital voter suppression in our country. You will be part of a grassroots movement to supplement our data efforts by simply sharing your observations of digital voter suppression tactics that affect you or others directly. So tell us what you see, when you see it, anytime that you see it.

When you report what you observe to us (even when you are unsure of what you are actually seeing), you help us document which tactics are being used especially to suppress the votes of Black, Indigenous, People of Color (BIPOC). Your efforts as a reporter will help to ensure that the 2020 Election is conducted more equitably and that every vote is counted.

If you see it, report it, & help us to make this a fair election for all!

- When you join our campaign as an individual reporter, you are taking back your **power** to impact digital voter suppression.

- **See it, Report it!** Report directly to us with screenshots and narratives.

- You should also report to the platforms when you see them. The more individuals report any infringements or efforts to suppress or impact the vote, the greater the likelihood that we can have an **impact** on the problem.

- Be aware of **any & all** campaigns targeting Black Identity, voters & celebrities

- Use the **Stop Digital Voter Suppression™ Project Toolkit** to help others understand what is happening and how they too, can help.

- Report digital voter suppression here: **https://stoponlinevaw.com/how-can-you-help-to-stop-digital-voter-suppression/**

The Stop Digital Voter Suppression™ Project is a grassroots reporting movement that will supplement the work being done by Stop Online Violence Against Women Inc., as well as our extensive data collection efforts with real-life experiences. SOVAW is a 501(c)(3) organization. This project is a nonpartisan endeavor.
